Portfolio

Skills

Data & BI: Power BI, Tableau, Excel (Advanced), SQL, Python (AI prompting), Miro, Jira, Loop, LaTex (AI prompting), HTML coding (AI Prompting)

Data Ops: ETL, QA/QC, Automation, Data Modelling

Tools: CapIQ, Opoint, InsightsFirst, Simplify360, Jupyter Notebooks (AI prompting),

Domains: Energy, Power, Sustainability, Financial Services

Education

MBA – Energy & Environment
(2018)
SIIB Pune — CGPA 6.7

B.Tech – Chemical Engineering
(2014)
HIT Kolkata — CGPA 7.8

Certifications

NISM V-A (Mutual Funds),
Lean Six Sigma – KPMG,
ISO 14001/50001 Audit,
Advanced Tableau,
Dashboard Design,
GRI G4 Training - KPMG,
DATA for Excellence - MSCI Inc

Professional Summary

Business Intelligence and Data Operations professional with **10 years of experience** in analytics, data quality, workflow automation, market intelligence, and performance reporting. Skilled in building data pipelines, QA/QC frameworks, prescreening systems, dashboards, and AI-enabled analytical workflows across energy, sustainability, engineering, and financial services.

Professional Experience

MSCI Inc. — Mumbai
Senior Analyst – Data Operations & BI — Oct 2024 – Present

- Manage enterprise-scale data workflows, modelling pipelines and data transformation logic.
- Implement QA/QC frameworks improving data reliability, auditability and governance.
- Build automated prescreening and validation workflows using Excel, Python and rule-based logic.
- Develop dashboards and KPI frameworks supporting operations and leadership reporting.
- Apply AI prompt engineering for metadata checks, data cleansing and template automation.

Evalueserve India — Gurugram
Analyst / Senior Analyst – Competitive Intelligence — Aug 2022 – Oct 2024

- Delivered CI, market analysis and sector insights for global energy and power-equipment clients.
- Tracked geopolitical, policy and regulatory developments across Balkan & European power markets.
- Built Power BI/Tableau dashboards, automated trackers and structured client deliverables.
- Created 50+ competitor/customer profiles supporting strategy, market assessments.
- Used CapIQ, Opoint, InsightsFirst and Simplify360 for structured data extraction.

GlobalData Research Centre (GDRC) — Hyderabad
Senior Research Analyst — Feb 2020 – Aug 2021

- Conducted research on heavy power components including market sizing and competitive landscapes.
- Built scenario-based modelling templates, databases and multi-country sector datasets.
- Delivered power outlooks, sector briefings, newsletters and COVID-19 impact analyses.

Earlier Career Summary (2014–2019)

L&T Financial Services — Agency Manager ● MarketsAndMarkets — Strategic Growth Analyst ● Chemtex Speciality — Sales & Service Engineer ● Aglow Quality Testing — Procurement Support

Key Projects

- **Competitor Intelligence Dashboard:** Multi-metric Power BI dashboard for benchmarking power-equipment manufacturers.
- **Balkan Energy Market Analysis:** Political, regulatory and transition insights for Balkan and EU-adjacent markets.
- **Global Energy Legislation Tracker:** Automated updates for global power-sector policies.
- **Data Automation Framework:** Workflow automation for prescreening, validation and data quality tasks.
